**Business Controls, Inc. Nominated for Prestigious 2008  
CSIA Apex Awards – Largest Technology Awards Program in Colorado**

***June 5 Event to Spotlight Colorado Technology Companies and Individuals***

Littleton, CO – May, 7 2008 – Business Controls, Inc., a leader in anonymous reporting systems and risk management services announced it has been nominated to the 2008 CSIA Apex Awards, the year's premier event for recognizing outstanding accomplishments and leadership by Colorado's advanced technology companies and people. The event, presented by CSIA (Colorado Software and Internet Association), will take place on June 5, 2008.

For eight years, the CSIA Apex Awards have expressed well-deserved recognition for the numerous technical advancements produced in Colorado. Presented in twelve categories, the awards celebrate outstanding support, unique innovations, and noteworthy community contributions on the part of the people and companies operating within Colorado's advanced technology industry.

Business Controls, Inc. was nominated for the *Most Innovative Technology Product* and *Distinguished Professional Services Award*. Steven Foster, President, of Business Controls, Inc. was also nominated for *Chief Tech Exec of the Year*. "We are honored to be among the companies nominated for these prestigious awards," said Steven Foster. "We are so proud to be recognized for our position on the leading edge of innovation and service within our market."

"Colorado is full of technology visionaries and they deserve credit and acknowledgement for the innovative work they are doing, and we are honored to host an event to shine the spotlight on these amazing companies and people," said Su Hawk, president of CSIA.

The 2008 Apex Awards event is expected to draw more than 600 attendees from throughout the area. Tickets are available at [www.coloradotechnology.org](http://www.coloradotechnology.org) (click on the Apex Awards information) or call CSIA at 303.592.4070.

**About Business Controls, Inc.**

Business Controls, a leader in anonymous reporting systems and risk management services has worked with organizations of all sizes to mitigate their internal risks, make them safer, and avoid litigation. Since its inception in 1994, Business Controls has served over a quarter of the Fortune 1000 companies and over a million client employees in over 90 countries.

Business Controls unique business model combines services that provide a complete risk mitigation solution package for their clients. In addition to their reporting solutions they also help clients limit their risks and potential exposure to litigation by helping them identify potential issues before they happen, conduct or consult the investigations needed, and establish policies

and procedures to prevent these issues from happening again. For more information, please visit [www.BusinessControls.com](http://www.BusinessControls.com).

**About CSIA:**

CSIA is Colorado's Technology Association, the leader on behalf of the technology industry in Colorado, providing connections, insight, advocacy, and competitive edge programs and services to help technology companies succeed and prosper. Since 1994, CSIA has been involved in key initiatives, programs, and policy issues to represent the technology industry in Colorado, and has provided a number of annual programs, events and connections to support business success. CSIA's activities are funded entirely by members and sponsors. All companies are invited to join the organization. For more information, please visit [www.coloradotechnology.org](http://www.coloradotechnology.org).
